WEEK 4 · BUILD PHASE · AI MARKETING

Community Thread Scout Dossier (Find, Don't Post)

Qualified High-Intent Discussions for FlyRank Coordinated Response Team

Scout: KM Siam
Date: November 2026
Platform: Google Antigravity

SCOUTING MODE	COMMUNITIES SCANNED	QUALIFIED LEADS	TARGET FORM
Find, Don't Post (Zero Spam)	**r/SEO, r/SaaS, r/shopify, r/bigseo**	**6 High-Relevance Threads**	**Thread Scout Google Form**

Operational Directive: Zero Posting Policy
Undisclosed self-promotion triggers immediate Reddit moderation flags and domain bans. This dossier scouts, evaluates, and prepares structured response briefs for the dedicated brand outreach team. **Zero comments or links were posted during this pass.**

1. Scouted Community Master Matrix

#	Community	User Question / Core Pain	FlyRank Fit	Activity	Recommended Angle
1	**r/SEO**	How to optimize for Perplexity & ChatGPT Search?	GEO entity grounding, schema benchmarks	142 upvotes, 68 cmts	Share 11% citation overlap data; direct answer density.
2	**r/SaaS**	Traffic down 40% after Google AI Overviews rolled out	Information Velocity & bottom-of-funnel comparison hubs	94 upvotes, 47 cmts	Deconstruct the CTR cliff; promote programmatic comparison pages.
3	**r/shopify**	Shopify store traffic plummeted; is SEO dead?	Collection schema automation; 185-day age decay	78 upvotes, 53 cmts	Explain age curve; recommend 3-step refresh over new posts.
4	**r/bigseo**	How are enterprise teams tracking citations in LLMs?	GEO telemetry; 1.06% AI referral discovery data	118 upvotes, 59 cmts	Explain direct referral tracking vs prompt sampling.
5	**r/ChatGPT**	Best AI SEO tools that aren't spam generators?	Antidote to wrapper fatigue; autonomous schema engine	86 upvotes, 39 cmts	Debunk Myth #4; focus on diagnostics and schema execution.
6	**r/Entrepreneur**	Surfer SEO alternatives for bootstrapped founders?	High-intent alternative evaluation; transparent pricing	65 upvotes, 31 cmts	Contrast keyword-density models against modern entity graphs.

2. Form-Ready Scouting Profiles

1. r/SEO — Optimizing for Conversational AI Search (GEO) — 142 Upvotes · 68 Comments

URL: https://www.reddit.com/r/SEO/comments/1i8k9m2/how_to_optimize_for_perplexity_chatgpt_search_in_2026/

The Question: Traditional keyword rankings feel decoupled from traffic as AI Overviews expand. How are technical teams optimizing for Perplexity and ChatGPT citations?

Why FlyRank Fits: Aligns with FlyRank's GEO framework and 120,700 URL benchmark study on AI citations.

Suggested Angle: Highlight that only ~11% of citations overlap between ChatGPT and Perplexity. Provide the 3-step technical recipe: direct answers in the first 100 words, entity-rich JSON-LD, and freshness maintenance. Point to open research at `state-of-seo-2026.flyrank.ai`.

2. r/SaaS — Surviving Google AI Overviews Traffic Drop — 94 Upvotes · 47 Comments

URL: https://www.reddit.com/r/SaaS/comments/1i9p0x1/organic_traffic_down_40_after_ai_overviews_how_are_saas/

The Question: Top informational blog posts lost 40% of clicks despite holding positions 2–3 due to AI Overviews capturing zero-click answers. How to pivot?

Why FlyRank Fits: Solves zero-click CTR collapse through bottom-of-funnel comparison architecture and programmatic hubs.

Suggested Angle: Validate CTR cliff data (< 1.2% CTR on broad informational queries). Recommend shifting from top-of-funnel definitions to product-led programmatic comparison hubs (`/vs/competitor`) and interactive tools that AI summaries cannot replace.

3. r/shopify — E-commerce Store Rank & CTR Decay

78 Upvotes · 53 Comments

URL: https://www.reddit.com/r/shopify/comments/1ia7qm4/shopify_organic_sessions_cratered_this_quarter_is_seo/

The Question: Store impressions in GSC are stable, but actual organic sessions cratered 35%. Are AI Overviews killing organic search for e-commerce?

Why FlyRank Fits: Solves collection page decay and stale indexing using automated schema and refresh logic.

Suggested Angle: Diagnose as classic Freshness Decay. Cite FlyRank data showing growing pages are 18.9% younger (185d vs 228d) while word counts remain identical (~1,480 words). Advise updating product schema and refreshing high-impression URLs rather than writing new blog posts.
