Content Pack: Repurposing State of SEO 2026

Multi-Channel Distribution Kit Amplifying FlyRank Thought Leadership

Author: KM Siam
Date: November 2026
Platform: Google Antigravity

SOURCE REPORT	DATASET SCOPE	ASSETS CREATED	PRIMARY HOOK
state-of-seo-2026.flyrank.ai	**120,700 URLs · 1.7M Sessions**	**3 Blogs, 3 Socials, 2 Videos, Specs**	**18.9% Age Gap & 1.06% AI Clicks**

1. Strategic Content Architecture

This content pack translates FlyRank's empirical research into a week-long multi-channel thought leadership campaign. Every asset is customized to its channel's native consumption habits while directing traffic back to the primary interactive report at `state-of-seo-2026.flyrank.ai`.

2. Deliverables Summary Matrix

Asset Type	Title / Headline	Core Stat / Hook	Channel Native Angle
Blog Post 1	The Age Gap Killing Your Organic Traffic	Growing pages are **18.9% younger** (185d vs 228d); word count is identical.	Long-form deep dive proving freshness decay over length.
Blog Post 2	The 1.06% AI Referral Tipping Point	AI search engines drove **17,693 sessions (1.06%)** with 3x conversion.	Generative Engine Optimization (GEO) guide for CMOs.
Blog Post 3	Busting the 2,500-Word SEO Myth	Word count correlation with rank growth is near zero ($r = 0.04$).	Debunking 10x skyscraper content with empirical data.
LinkedIn Post	Why 3,000-Word Blog Posts Are Failing You	1,487 words (growing) vs 1,481 words (declining) = 6-word delta.	High-signal B2B post with structured formatting and clear CTA.
X Thread	7 Brutal Truths from 1.7M Sessions	10-tweet thread summarizing CTR cliffs and AI traffic surges.	High-velocity technical breakdown for tech founders and marketers.
IG Carousel	The New Rules of AI SEO (5 Slides)	Visual comparison cards translating complex data into slides.	Designed for swipe-through engagement on mobile Instagram.
Image Specs	3 Stat Cards + 1 Infographic Spec	Exact Canva dimensions, hex codes (#090D16, #0284C7, #10B981), and layouts.	Social graphics and newsletter embed asset specs.
Video Script 1	The 18.9% Rule (Why Your Content Is Dying)	45-second high-energy hook opening on traffic decay.	Shorts / Reels / TikTok script with visual cues and captions.
Video Script 2	Where Did 17,000 AI Search Clicks Come From?	55-second breakdown on Perplexity and ChatGPT search referrals.	Conversational short-form video for growth engineers.

3. High-Impact Asset Details

Blog 1: The 18.9% Age Gap

Analyzes the 43-day tipping point between growing (185 days) and declining (228 days) content across 120,700 URLs. Shows that declining pages still accumulate impressions but lose click share because search engines prioritize fresher documents citing updated statistics. Outlines a 3-step programmatic refresh playbook.

Blog 2: The 1.06% AI Referral Tipping Point

Breaks down 17,693 direct sessions originating from ChatGPT, Perplexity, Claude, and Gemini. Highlights that Perplexity and ChatGPT command over 84% of conversational referrals, and that AI search traffic converts at 3.2x the rate of traditional search due to high user verification intent.

Video Script Highlights

Both short-form scripts (45s and 55s) are crafted with immediate 3-second pattern interrupts, dynamic on-screen text callouts, and frictionless CTAs driving viewers to explore the full interactive paper at `state-of-seo-2026.flyrank.ai`.

Full Content Pack Location

The full markdown dossier containing word-for-word blog posts, copy-paste social posts, and visual Canva specifications is committed in `STATE_OF_SEO_2026_CONTENT_PACK.md`.
