SECTION 2: THE VALUE STACK (What You Get in 60 Seconds)

Headline: What Traditional SEO Tools Won't Show You (A $1,500 Agency Audit in 60 Seconds)

Our distributed edge engine evaluates 1.7M search patterns across Google AI Overviews, Perplexity, and ChatGPT Search to deliver:

- **1. AI Citation Footprint:** See the exact conversational buying queries where LLMs recommend your product vs your top 3 competitors.
- **2. The 185-Day Content Decay Radar:** Pinpoint every URL on your domain that has crossed into the decay zone (from our 120,700 URL benchmark study).
- **3. Three Turnkey Schema & GEO Fixes:** Clean, ready-to-copy JSON-LD schema markup and extractable direct answers to restore lost clicks.

SECTION 3: THREE OUTCOME-DRIVEN BENEFITS

• **Turn AI Overviews into Traffic:** Capture extractable answer blocks instead of losing clicks to zero-click summary cards.

• **Save $4,000/Month on Wasteful Blog Posts:** Reallocate budget from new articles to refreshing existing URLs Google already sees.

• **Expose Competitor Positioning in LLMs:** Uncover the exact third-party citation sources category leaders use to get recommended.

SECTION 4: EMPIRICAL PROOF & CASE STUDIES

Praella (B2B SaaS / Agency): 5.2x increase in inbound search leads, tripled pipeline without adding SDRs.

BattlBox (DTC Subscription): 21.9x click growth, dominant citations across ChatGPT, Perplexity, and Google AIO.

Cymbiotika (Health & Longevity): Broke an 8-month plateau to achieve 4.96x impression growth and 1.78M clicks.

SECTION 5: OBJECTION-HANDLING FAQ

Q: Is this really free? What's the catch? A: 100% free. No credit card, no mandatory 30-minute sales call. We provide this because ~15% of founders who discover their AI citation gaps hire FlyRank to automate fixes for them.

Q: Do you need access to our CMS or Search Console? A: Zero access required. We analyze public-facing signals evaluated by web crawlers.

Q: How does this differ from Semrush/Ahrefs? A: Legacy tools only measure historical Google rankings; they cannot monitor ChatGPT/Perplexity citations or 185-day decay.
